

Defining R.I.S.E.

Recovery in Supportive Environments (R.I.S.E.) utilizes evidence based models of care connecting substance use disorder treatment with (subsidized) recovery residence support.

NUWAY's nonprofit mission has always been to provide extended care treatment for individuals in supportive environments. The R.I.S.E. model continues that tradition by linking outpatient treatment and recovery residence support.

Environments

Extending care with
safe, sober living support

Since 1966

Outpatient Services

NUWAY outpatient clients have the option to live in independently run recovery residences, located in the community of their choice, and have their housing program fees subsidized while they attend treatment. Additionally, clients receive:

- Twenty hours of licensed co-occurring treatment per week
- Nutritionally-based snacks
- Transportation assistance
- No cost drug testing
- Evidence based modalities

Recovery Residence Support

NUWAY utilizes 70+ independent providers of sober living throughout the Twin Cities. Recovery residence support:

- Provides a choice in recovery housing
- Offers safe, supportive sober environment
- Is community based
- Is ASAM (dimension six) focused
- Is an evidence based practice
- Is available for the duration of treatment

"Johns Hopkins University School of Medicine reports...that those who attend day treatment and live in a sober living facility or drug-free housing are 10 times more likely to avoid relapse."

Client Benefits & Outcomes

- Removes housing barrier early in recovery
- Allows clients the extended time needed to establish recovery in their community
- Empowers client self-efficacy and choice
- Allows clients to work and/or go to school
- Follows best practice
- Builds community
- Option to remain in a recovery residence after services are completed with NUWAY
